

# HELI HIKE KRAPPES 2022

---

Heli Hike Krappes -22 experience starts with a helicopter tour with Fjällflygarna from the base in Adolfström. The tour will take you to the Kråhpiešvárrie mountain which is about 1000 m above sea level. Depending on the weather the landing place can vary.

At the top, you will experience a 360 degrees view over Kråhpiešvárrie. If it's windy at the top you can always find a place to hide. The Laisdalen vally is a part of the Biosphere Reserve Vindelälven-Juhtátahkka by UNESCO. When you are at the top there are several possibilities for example enjoy your coffee or go for a fish at Toppsjön. Just remember that you have to have a fishing licence which you can buy in our reception before take-off. Naturkartan.se is the digital map that we recommend for this tour. You can download it offline before you go.

The hike will take you along the top of the mountain and you can enjoy the view over Bäversjön och Loppsjön. A quick or longer rest can be taken before you go into the forest, at Bench and Table, which can be a good idea before the relatively steep and stone hiking on the marked trail in the woods. Depending on the time you will be able to find cloudberry or blueberry along the trail. Remember to respect the [Right of public access](#).

The hike down to Loppviken where the boat pick-up is is about 2,5 kilometres. Please call +46 70 386 12 72, when you arrive at the sångarna and Loppsjöbäcken so we can pick you up shortly after. We will bring floating gear to you. The total hike is about 6 km long.

If you would like a longer hike you can choose the trail that takes you by Loppsjön and Bäversjön and ends up at Gautoforsen. We will arrange boat transport over the lake for you. If you would like to stay at Loppsjön or Bäversjön you can rent boats from us. Just remember to book this before departure in the reception.
